EDUCATION

B.E in Electronics and Telecommunication

Jhulelal Institute of Technology
April 2014 - June 2017
CGPA - 8.45

Diploma in Electronics and Telecommunication

Dharampeth Polytechnic
2011 - 2014
Percentage - 64%

SSC

SFS High School
2010 - 2011
Percentage - 75.64%

SKILLS

C, C#
Unity 3D , Visual Studio,
HTML, CSS
SQL
Python Fast API, Full Stack
Learning C++, React

About Me

5.4 years of hands-on experience in Virtual Reality (VR) and Augmented Reality (AR) development, with a strong focus on creating immersive and innovative experiences. Proficient in C, C++, and C# programming, with a deep understanding of software architecture and development best practices. Extensive experience working with development environments such as Visual Studio, Visual Studio Code, and Unity 3D for efficient and high-quality project delivery. Skilled in Virtual Reality hardware integration, with practical knowledge of configuring and optimizing VR systems for seamless user interaction. Well-versed in working with a variety of VR SDKs (e.g., Oculus, HTC Vive, etc.) to build and deploy interactive experiences. Experienced in leveraging AR SDKs (e.g., ARCore, ARKit, Vuforia) to develop engaging and intuitive augmented reality applications.

Also experienced in Python and C++, with a strong interest in expanding my technical skill set and exploring new technologies. I am a quick learner, eager to take on new challenges, explore new opportunities, and contribute my technical experience while continuing to grow professionally.

WORK EXPERIENCE

ASSOCIATE SOFTWARE DEVELOPER

PurpleTalk Pvt India June 2018 - Sep 2021

SENIOR SOFTWARE DEVELOPER

Mobile Programming LLC Dec 2021 - Aug 2023

SENIOR SOFTWARE DEVELOPER

Infogen Labs Aug 2023 - June 2024

SDE 2

Jio Tesseract June 2024 - Jan 2025

COURSE

Advanced Embedded System training

March - 2018

Professional training

LANGUAGE

English

Hindli

Marathi

KEY STRENGTHS

Quick learner and well organized.

Perform well in a challenging environment.

Have an ability to work individually as well as in a group

PROJECTS

SDK DEVELOPMENT

SDE - 2 at Jio Tesseract June 2024 - Jan 2025

Worked as part of the SDK development team, contributing to the creation and enhancement of SDKs for VR applications, ensuring seamless integration with various VR platforms and optimizing performance for immersive experiences.
Responsibilities: Collaborated on the development and optimization of VR SDKs. Ensured compatibility with multiple VR platforms.
Focused on enhancing performance and user experience in VR applications.

AR MULTIPLAYER GAME (POC)

Senior Software Developer at Infogen Labs Oct 2024 - Oct 2024

Created an AR furniture library with interactive features like zooming and object descriptions, enhancing the user experience in AR.

AR LIBRARY (POC)

Senior Software Developer at Infogen Labs Aug 2023 - Aug 2023

Created an AR furniture library with interactive features like zooming and object descriptions, enhancing the user experience in AR.

COFFEE SPILLING APPLICATION AR

Senior Software Developer at Infogen Labs July 2023 - Aug 2023

Placing a Coffee Cup from one table to Another in AR
Developed an AR application allowing users to place a coffee cup from one table to another in a virtual environment

METAVERSE IN HOUSING SOLUTION

Senior Software Developer at Mobile Programming LLC Dec 2022- July 2023

Multiplayer VR Conference Room where users can connect and make presentations and can communicate.
Created a multiplayer VR conference room where users can connect, make presentations, and communicate in a virtual environment.

CAR MERGER

Senior Software Developer at Mobile Programming LLC Sep 2022- Nov 2022

A simple math game needs to add numbers and update the car as per values

CUBE DASH

Senior Software Developer at
Mobile Programming LLC

Sep 2022- Nov 2022

Created a Hyper Casual game where we need to Dash another cube and push the cube in the proper slot

BALL RISE

Senior Software Developer at
Mobile Programming LLC

Sep 2022- Nov 2022

Created a Hyper Casual game where we need to raise the ball on tap.

SLICE IT UP

Senior Software Developer at
Mobile Programming LLC

Sep 2022- Nov 2022

Created a Hyper Casual game where their knife can cut the fruits

DEL MONTE SHOPPING VR APPLICATION

Senior Software Developer at
Mobile Programming LLC

May 2022- Aug 2022

Create a Multiplayer VR experience, users can interact with different objects and are able to place the object using cart and UI.

FYND

Senior Software Developer at
Mobile Programming LLC

March 2022- April 2022

Created a beer Stand AR application using Vuforia. Users can be able to scale and locate the beer stand.

AGORITY

Senior Software Developer at
Mobile Programming LLC

Dec 2022- Jan 2022

Created a Video conference application where users can communicate with the user using the application.

MULTIPLAYER METAVERSE

Senior Software Developer at
Mobile Programming LLC

April 2021- Sep 2021

Created a metaverse experience where users can join a room and choose the environment and go into the environment and are able to chat, communicate, and be able to meet another user.

CATCHING TRASH IN AR

Senior Software Developer at
Mobile Programming LLC

March 2021- April 2021

Created and interactive Recycle Bins where users can collect the Trash.

JURASSIC PART ROLLER COASTER AND FAIRY WHEEL

Senior Software Developer at Mobile Programming LLC

Jan 2021- Feb 2021

Created a virtual world theme of Jurassic Park and developed the interaction with roller coasters, users can take a ride of a roller coaster and Ferris wheel.

VIRTUAL TOUR

Senior Software Developer at Mobile Programming LLC

Dec 2020- Jan 2021

Campus Tour, with multiple viewing with different 3d vehicles, like Golf Cart, Boat, Plane, user can change its position by interacting with the different Vehicle models.

ACTIVE SHOOTER

Associate Software Developer at PurpleTalk Pvt Ltd

Feb 2020- March 2021

Virtual Reality training demo designed to showcase active shooter training for hospitals. This training will orientate you to a virtual reality environment and teach you how to move and interact with objects. It will orient you to how you would respond in an active shooter crisis in the hospital.

SOLAR SYSTEM VR

Associate Software Developer at PurpleTalk Pvt Ltd

May 2019- May 2019

Designed Solar System Tour in mobile VR for educational purposes so that users can explore different planets and their brief description by reading and listening to sound

ASIAN PAINT CAMPUS VR

Associate Software Developer at PurpleTalk Pvt Ltd

Jan 2019- Jan 2019

Asian paint project is based on overview of Asian paints it has different 360 Image and have descriptions on paint and walls. Users can explore different sections like home, office, shop, factory etc, users are able to explore this category.
